

## IN THE SPECIFICATION

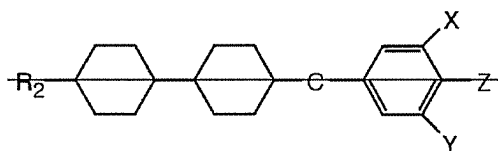

Please accept the following amendments to the specification:

The following paragraph replaces the paragraph on page 7, extending from line 5 to 8:

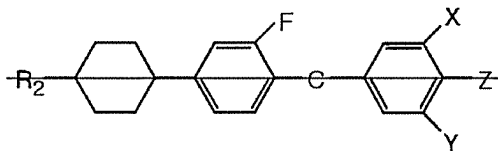

A 1-gradation voltage applied between the pixel electrode and the common electrode is preferably a value in a range within which a standardized ~~comparisen~~-contrast ratio becomes 0.8 or more in every view angle, when standardizing the ~~comparisen~~-contrast ratio for applying 0V of the 1-gradation voltage as 1.

The following structures replace those for chemical formulas 7 and 8 on page 15, lines 10 to 13:

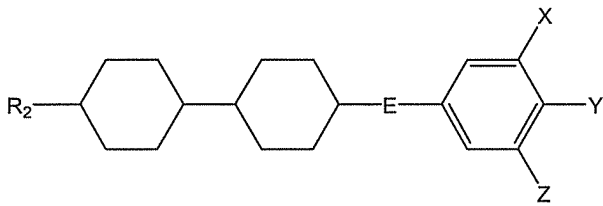

~~[Chemical Formula 7]~~

~~[Chemical Formula 8]~~

[Chemical Formula 7]

[Chemical Formula 8]
